NOODLE CHAT

PEOPLE OFTEN ASK:

“What makes your noodles taste better than other noodles?”

ANSWER:

A superior grade flour and plenty of eggs gives them the home made taste. Lots of people tell us they taste just like the noodles Mother or Grandma used to make. The noodles have a shelf life of approximately 6 months, but they can also be frozen to help retain the fresh quality taste.

FOOD FOR THOUGHT:

Next time you're scratching your NOODLE deciding what to make for dinner, try a pasta dish. NOODLES can be used in many ways, casseroles, soups, or serve with a vegetable or meat. Our FLAVORED NOODLES are good served as a side dish with Parmesan cheese. There is NO LIMIT to the many palate - pleasing “PASTABILITIES.”
